From the Scots Courant, dated August 18.

Ipswich, August 9.

**T**HIS Day our Sovereign King George was proclaimed here, Successor to her late Majesty of blessed Memory. The Trainbands being all in Arms, and in good Order, were followed by the Magistrates and Town Council, who were accompanied with some Noblemen, and a great Number of neighbouring Gentlemen of considerable Character, to a Theatre erected at the Cross for that Purpose, where they heard his Majesty King George proclaimed King of Great Britain, France and Ireland. And after the Magistrates, Council and Gentlemen had placed themselves round the Theatre, surrounded by the Trainbands in Arms, they drank his Majesty's Health, and the whole Royal Family's separately. A Volley from the Steeple gave a Signal to some great Guns placed at the Harbour, which, with other great Guns placed at the Cross, fired at each Health, with Huzzas, the whole Ships in the Harbour having their Flags displayed. And thereafter the Magistrates and Council, accompanied as said is, went into a large Hall, where the for said and many other loyal Healths were again repeated, with a Volley of great and small Guns at each Health. And the Night concluded with Illuminations, Drums beating, Bells ringing, Musick, and all other Demonstrations of Joy, and with the greatest Harmony, Cheerfulness and Concord possible. Betwixt 40 and 50 of the Gentlemen there present, besides the Magistrates, Council and Community, having signed the above Proclamation.

Kilmarnock, Aug. 10. This Day the Elector of Brunswick Lunenburg was with great Joy and Solemnity proclaimed here, King of Great Britain, France and Ireland. All the Inhabitants of this Place, by the E. of Kilmarnock's Orders, appeared in Arms, with Drums beating and Colours flying. They express a great deal of Loyalty to his Majesty, and readiness to defend with their Lives and Fortunes, the Rights of their Lawful Sovereign King George. The E. of Kilmarnock and the Lord Boyd, attended by the Magistrates and Town Council, and several Gentlemen from the Country, went to the Cross, which was hung with Carpet, and where there was a great Bonfire, and there, under repeated Volleys of the Inhabitants, small Shot, drank his Majesty's Health, and his safe and speedy Arrival to Britain, with several other Loyal Healths, &c. The Night concluded with ringing of Bells, and other Demonstrations of Joy usual on so great and glorious an Occasion.

London, August 25.

Yesterday arrived the Mail due from Holland.

From the Amst. Gazette, dated August 31.

It is advised from Genoa the 18th of August, by a Vessel come in from Majorca, that the Marshal Duke of Berwick having made an Assault on Barcelona, was repulsed with the Loss of about 4000 Men. The same News is related in Letters from Marseilles of the 17th of August.

From the Hague Courant, dated August 30.

Marseilles, Aug. 17. The 15th at Night arrived here a Vessel from Tortosa, which touched at Barcelona, and came from thence the 13th. The Master reports, That the Breach in the Wall of the Body of the City of Barcelona being wide enough for 400 Men to mount it at once, the Duke of Berwick caused an Assault to be given the 13th by 10000 Men; that the Attack was begun by the Spaniards, supported by the French, that they took Post on the Breach, but after a Fight of four Hours, were beaten off, with the Loss of 3000 Men, among them almost all the French and Spanish Grenadiers. That however, the Duke of Berwick had resolved to renew the Storm the 14th, and had ordered the Commander of the French Squadron to approach the Town at the same time as near as he could, with his Ship. That the Besieged, animated by the Bravery of the Monks, who to the Number of 6000 exposed themselves continually on the Breach, were preparing to stand the Assault again. That they had cast up Intrenchments behind the Breach, and from Street to Street, which they were resolutely determined to defend one after another, having placed on them 100 Cannon loaded with Cartridge Shot. The Volunteers and Miquelets of the open Country gave no little Disturbance to the Besiegers likewise, so that it was found necessary to detach 6000 Men against them. And the Town was not like to be taken without Expence of more Time and much more Blood.
